LOUISIANA. The people of many of the principal parishes of Louisiana have accepted the resignation of the Kellogg officials and installed in their places those elected The Revolution General-Kellogg with McEnery nearly two years ago. This is good news, following upon that of the expulsion of Kellogg, and we hope before the five days limit of the President has expired that every office Peace Restored and Business Rein the State will be filled by the men legally elected thereo, and who have hitherto been revented from occupying them by Keliogg and his minions, supported by Federal bayonets. If this is done Grant and his cabinet will have to deal Grant and His Cabinet Deterwith a de facto government, one in possession by the sovereign will and consent-for there is nothing better assured than that a majority of the citizens of Louisiana favor this movement, so successful in removing Kellogg. As to how Important Correspondence—The he will deal with it, we sre not left in Fight by an Eye Witnessany doubt. The result of the cabinet conference of yesterday leaves no room for any. He has recognized Kellogg, and will restore him by Federal bayonets and by them maintain him, and not fleet. And so the will of the people, in a free republic, the will of the people of a syvereign State is to be set at manylit, and usurpation, lyrandy, robberg and outrage are to be sustained.
